Considering the size of some of the Bingo payouts at Ute Mountain Casino, you might assume that it's a tough game to play. Fear not! If you're unsure of how to play Bingo at a casino, this is for you.

There are a lot of things to love about Bingo. One of our favorite elements of the game is that anyone can play—yes, anyone. But other fun aspects of Bingo are that it's inclusive and that there isn't too much strategy involved. So if you're feeling lucky, what are you waiting for?! Let's get started!

Bingo Basics

When you arrive for Bingo, you'll order as many Bingo sheets as you want to play. Or, if you prefer to play electronically, you'll receive a PHD machine that has as many Bingo sheets as you've loaded onto it. Most people increase their odds of winning by purchasing more than one sheet. If you're new to the game, it might be easier to play just a couple at first. Just be sure to keep your sheets straight!

These sheets list 25 randomly generated numbers that range from 1 to 100. The caller will announce randomized numbers one by one. Simply mark the number on your sheet with your dauber! (That's that jumbo-sized marker, which you can purchase if you left yours at home.) If you're playing on a PHD machine, the device will search your sheets for the number that has been called. Easy, right?

In classic Bingo, the first participant to cross out a line of 5 numbers horizontally, vertically, or diagonally wins a part of the prize—or, depending on the game, the whole prize! Depending on the Bingo variation, you might be looking to complete your sheet with a random pattern of numbers. This may be creating an "X" on the sheet or marking off the four corners of the sheet. The biggest payout usually comes when you've been lucky enough to cross off each number on your sheet.

You might want to do some vocal warm-ups before you head out for your Bingo night! In our 400-seat Bingo hall, you'll need to call out "Bingo!" as soon as you have it. If you and another player reach Bingo at the same time, the prize is split evenly.

What Are The Odds That I'll Win Bingo?

Great question! The likelihood of you winning depends on a number of factors, like what the rules of that specific game are and how many people are playing with you. Weeknights are usually a little less crowded. By playing with fewer people, you improve your likelihood of a win. Paying close attention to the caller will also improve your odds, as it means that you'll be less likely to miss something important.

The more sheets you play, the more your odds of winning increase. But don't bite off more than you can chew! While you're still learning how to play Bingo at a casino, you have to learn how to scan your sheets. If you're rushing because you bought too many, you might miss something! Of course, we hope you win. But even if you don't, we guarantee you'll have a great time playing! **Bingo Etiquette**

Every Bingo hall is different, so rules and etiquette may vary a little based on where you're playing. Many places have brochures or postings that list their house rules. Do a quick skim and make sure you don't ruffle any feathers!

Just in case, here's a list of some good things to keep in mind when you're playing Bingo. As long as you remember these points, the rest is simple as can be! When you play Bingo, be sure to... Arrive early so that you can get a great seat—it's first come, first serve!

Bring a lucky charm, if you have one! It might be a rabbit's foot, a four-leaf clover, or something else. We don't judge!

Keep the noise level down so everyone can hear the numbers being called. It's also good practice to read the room. Avoid using foul language or being overly boisterous.

Other players may find it distracting if you repeat the number you're searching for while you're searching for it. If this helps you, try to keep it under your breath, if possible.

Now for the part that doesn't have to be quiet! Yell "Bingo!" as soon as you have it—if you don't do so before the next number is called, your ticket is no longer valid.

Most importantly, relax and have fun! Bingo is at its best when everyone is enjoying themselves. If you're new to Bingo, we hope that we'll see you at one of our Bingo events soon! With this guide, you've already got everything you need to be a pro at the Bingo table. Let's win some money!

Bingo at Ute Mountain Casino – Are You Ready to Play?

No matter your experience level, Bingo at Ute Mountain Casino is a lively and entertaining event. Our roomy Bingo hall has 400 seats, so everyone gets a spot at the table. We've got a great schedule with matinee and evening sessions, so you can come down whenever you're ready to win some serious cash.

Ela está bem, afirma, despindo las migas de su chaqueta.

"¿Por qué tanta alarma?"

Corro hacia el lado de la cama de mi paciente después de ser convocado por su presión arterial de 220/105 mmHg, verificada en tres ocasiones. En mi mente, estoy revisando una lista de consecuencias catastróficas, como un derrame cerebral, que podrían destruir su vida en un instante.

El hospital no tiene una unidad de cuidados intensivos. ¿Cómo y dónde la evacuaré? Si una placa medicamentosa no funciona, ¿podemos hacer una infusión? A los 82 años, se ve una década más joven, pero ¿ha escrito una directiva anticipada de atención médica en caso de que no pueda tomar decisiones por sí misma?

Mientras la enfermera y yo actuamos, la paciente dice felizmente a su edad nadie se preocupa por la presión arterial. Después de ver a un amigo sobrevivir a un derrame cerebral hemorrágico hipertensivo pero quedar con discapacidad permanente, discrepo.

Pero su respuesta despreocupada me recuerda la relevancia de las pautas emitidas por el Grupo de Trabajo Nacional de Hipertensión de Australia.

La hipertensión, definida como una presión arterial superior a 140/90, es por lejos el factor de riesgo más importante para las muertes prevenibles. Alrededor de 10 millones de personas en todo el mundo, 25.000 de ellas en Australia y 75.000 en el Reino Unido, mueren anualmente de condiciones relacionadas con la hipertensión, como accidente cerebrovascular, enfermedad cardíaca y renal y demencia vascular.

La hipertensión es lo suficientemente común como para haber entrado en el lenguaje cotidiano, como en "esta persona eleva mi presión arterial". Pero de los uno en tres australianos que tienen hipertensión, la mitad ni siquiera lo sabe. De los que lo saben, solo una tercera parte son tratados efectivamente, coincidiendo con las tasas en el Reino Unido y los Estados Unidos, pero peor que Corea del Sur y Canadá.

Ignoramos la hipertensión a nuestro propio riesgo porque es un asesino silencioso. A diferencia de muchas otras condiciones crónicas, la hipertensión rara vez causa síntomas, afecta a jóvenes y mayores, y es altamente tratable. De hecho, para una afección letal, su imagen como un transeúnte benigno plantea un gran dilema de salud pública.

Si tiene hipertensión, es probable que ni siquiera lo sepa. Y si sabe que es hipertenso, es probable que no sepa si está bien controlado.

Conocer su presión arterial

Cuando un amigo recientemente informó palpitaciones, quise saber su presión arterial usual. Ella adivinó un número en 110 y preguntó tímidamente si podría ser la "lectura superior o inferior", con muy diferentes consecuencias. Afortunadamente, una ambulancia llegó a tiempo para tratar su ictus inminente.

Cerca del 90% de la población ve a un GP al menos una vez al año. Otras
