Five Card Draw

Five Card Draw is the game many people grew up playing around the kitchen table. In this game, your goal is to make the best five-card hand after one draw. Like Hold'em, it's a game that's easy to learn, but difficult to master.

What is Five Card

Draw? Rules of the game.

Draw games are played with blinds and a button, just like flop games. Each player is dealt five hidden hole cards. The first player after the big blind has the option to fold, call, or raise. Action continues clockwise around the poker table until betting is complete for the round.

How to play Five Card Draw

Once

the first round of betting is complete, there is a draw. Each player selects which (if any) cards they want to discard by clicking on them. By clicking a second time on a card that you have planned to discard, you remove it from the discard set. Discarding continues around the table clockwise. When it is your turn to discard, you press the button to confirm you wish to discard the selected cards. After the first draw, there is another round of betting, beginning with the first active player to the left of the button. So, the sequence of action is: Five cards dealt to each player Betting round #1, beginning with first active player to the left of the big blind Draw Betting round #2, beginning with first active player to the left of the button Showdown (if necessary) In draw games, it is possible for more cards to be needed than are remaining in the deck. In this case, the cards are reshuffled, and play continues using the new deck. For more information on reshuffling in draw games, please see Reshuffling the Deck.

How do you determine the winner in Five Card Draw?

The player with the best

five-card hand wins the pot. After the pot is awarded to the best hand, a new game of Five Card Draw is ready to be played. If two or more hands have the same value, the pot

is equally split between them. There is no precedence of suit for the purposes of awarding the pot.
